## COLLEGE UPDATES

### Downtown Campus Learning Commons

Renovations will soon begin on the first floor of the South building, repurposing the former art gallery, dance studio, adjacent computer labs, classrooms, entrance space, and capturing the hallway as useful space. The college will work with faculty, staff and the architecture and design firm to design and build the best space possible to support our mission.

### Computer Science

The Computer Science Program is moving to the Downtown campus. This large enrollment program will increase student attendance there and put it in close proximity to many downtown tech businesses who hire PPCC students as interns and permanent employees.

### New Crosswalk

A new crosswalk was installed on Sierra Madre creating a safer connection between the Downtown campus buildings. It was paid for by the City of C.S.

### Tuition News

The CCS State Board voted to freeze tuition for the upcoming academic year and voted to support a new tuition category for online active-duty military students. They no longer have to pay out-of-pocket, on top of using their maximum Tuition Assistance, to take online classes.
