Still/Moving

Launching Friday, Dec. 4, this collaborative multi-discipline project combines dance, visual arts, music, and theatre.

We are all having to be still in this moment, while also finding new ways to move forward. This is about the power of perseverance, of pushing past the discomfort of change and finding beauty in the human experience. Even when it is not always beautiful...

We must still move.

- Virtual theatre and dance performances
- Recordings of musical performances
- Fall Art Student Exhibit (through Jan. 22) with virtual tours
- Prerecorded art student "live" painting and artist statements/talks.
